Technicial Data Sheet:  SMA® 1000MA

STYRENE MALEIC ANHYDRIDE AMIC ACID RESIN

DESCRIPTION
SMA® 1000MA is a pH neutral aqueous solution of a styrene maleic anhydride resin amic acid.

PRODUCT HIGHLIGHTS
Neutral pH
No amine odor
High solids, low viscosity solution
Very low VOC
Low ion content

PERFORMANCE PROPERTIES
Heat resistance
Excellent surfactant
Freeze/thaw stable

SUGGESTED APPLICATIONS
Dispersant for metallic pigments
Overprint varnishes
Emulsions polymerization
Polymer modification
Inks
