

# UTILIZING SUSTAINABLE RAW MATERIALS

**Identifying and securing new sustainable feedstocks such as:**

**Bio-feedstocks**

- Sugar beets
- Corn, rapeseed
- Sugar canes

**Refined oil**

- Vegetable oil
- Used cooking oil
- Pyrolysis oil

**Waste valorization**

- Fusel oil (Ethanol)
- Investigating other 2G solutions

**Partnering for access bio-based and certified renewable monomers for:**

Butadiene

Farnesene

Styrene

Isoamylene

**Developing and commercializing biobased and certified renewable products such as:**

Krasol®

Ricon®

Cleartack®
